Redefining room service... The Zephyre Corporation's annual convention may be designed to let colleagues kick back in the Florida sun, but Riley McGuire doesn't plan to let anything interfere with her chance to shine for corporate management.

Not even the devastatingly sexy guy playing air guitar—naked—in her hotel suite.

Oliver Wilson expected to share a deluxe suite with what he assumed was an amiable Irish-American beer drinker, not an acid-tongued Boston beauty who can't hold her liquor. Their agreement to muddle through is shot to hell by a tug of attraction that, in the convention's decadent atmosphere, grows too strong to resist.

Oliver discovers there's more going on under Riley's suits than good marketing ideas. And Oliver's gentlemanly teasing gets under Riley's skin...in a sexy way. Behind closed doors, lust explodes between the sheets. But is a pair of vibrating panties a temporary pleasure, or the start of something that doesn't require batteries? Product Warnings Please check with your hotel concierge to ask if the handsome naked man playing air guitar comes with the room. There may be an extra surcharge not covered under federal business reimbursement regulations. Be sure to tip the bellboy.
