Delaney Causey has recently undergone a total transformation from “mother’s servant” to an independent woman. When she sees the hottie next door, she can’t wait to spread her wings a little further. When a coworker invites her to Club Red, she can’t wait to investigate the BDSM scene. Waylon Boswell is under her spell, and after Delaney’s friend gives him a guest pass to Club Red, he goes there to help Delaney explore her inner submissive. As a natural Dom, he is very willing to help her learn some of the finer points of submission. While her enthusiasm with the scene excites him, her virginity not only surprises him, but keeps him from pushing their relationship further. When her independence is threatened by her family, how will she be able to handle it? Will Waylon be there to help her out, or will she have to strengthen her resolve a little more to fight for her freedom?
