A lighthouse keeper's kiss can spark a storm... A weekend at the beach should be fun—and Stacy Jones is having fun, but she never intended to rescue a guy from his ex-fiancée, find herself mid-renovation of an old lighthouse or face her own life-changing moment. "Light Kisses" is the perfect short break from your busy week. It's just a little bit naughty and a whole lot of fun! "Light Kisses" is a short romance, about an hour's reading time. It was previously published in 2015 as part of "Annie Seaton's Coastal Collection", which is no longer for sale.
