Daniel Anderson doesn't trust easily, neither does he want to commit. But try as he might to keep his distance from Sara, he finds himself drawn back to her time and again. Sara Mason is the type of woman one married—yet love and marriage are something he keeps well away from. Could he re-evaluate his plans? Allow God to lead him down a path he has fought all his life? He isn't so sure. He doesn't do relationships, girlfriends—a wife. Besides, she's a divorcee with an ex-husband on the scene; he doesn't want to get involved. As his dreams and visions draw him closer to God, they also draw him closer to Sara, compelling him to make decisions that he never thought possible. But soon after, when he thought his path is finally set, he discovers with certainty that his past is not what it seems.
