Sykosa (that's "sy"-as-in-"my" ko-sa) is a junior in high school. She belongs to an exclusive clique of girls called the "Queens." The leader is her best friend Niko. Their friendship has been strained lately because Tom-Sykosa's first boyfriend-has gotten all serious about making her his pretty Prom princess. That is if he ever gets around to asking her.

Before Prom, there's a party at Niko's cottage where parental supervision will be nil. He wants to have sex. She doesn't. He sometimes acts like that doesn't matter. It matters. Sykosa has a secret she has never told anyone about. Although, some people-Tom included-know anyway. It happened last year and it was big and she'll cry if she talks about it so she's done talking about it, okay? Never mind, it's nobody's business. Except it keeps happening, and it never stops.

She doesn't want to deal with it. He does. She sometimes acts like that doesn't matter. It matters. Check out the book trailer for more information: <http://youtu.be/l8RU2iunctl>
