Jesse McHayden was adopted by a rich family at the age of eight. Growing up, he had it all: the immeasurable wealth and those unfairly enticing looks. However, unknowingly, Jesse had been nurturing a dark past in his subconscious, one that was slowly growing with him and consuming him. The voices in his head were revealing to him his memories, buried deep in his mind. But Jesse only turns to extreme means to deny his past. Will he ever understand that the only way forward is to go back?
