Patrick saw nothing wrong with checking out Connor while their parents were just dating.

But now that they've married, and they live in the same house, he can't take it anymore. He waits until Connor is asleep to fondle him and make his first move. If only he can wake with a smile. This story features hot gay step brother sex, pseudo incest, voyeurism and anal sex. Great for reading on your e-reader or tablet. Do not download if you are under 18.
