Chiclete com Banana are an adult humour comic book series created in the 80's. Angeli developed a whole bunch of characters, famous for their anarchist and urban humour. Among those characters some stand out, as: - The anachronic left wing Meia Oito and his homosexual partner Nanico; - Rê Bordosa, know as the craziest junkie in the 80's; - Luke and Tantra, two teenagers that only think about losing their virginity; - Wood & Stock, two old hippies that abandoned their neurons in the 60's; - The Skrotinhos, two midget unseparated friends with big mouths always looking for trouble; - The Skrotinhas, the female version of the above; - Mara tara, the most preverted ninfomaniac of the comic world; - Rhalah Rikota, a spiritual guru that bangs his followers; - Edi Campana, a a voyeur and fetishist - Bob Cuspe, the anarcho punk that spit on the worst creatures of our generation.
