WHO'S NOT ASLEEP?, a charming bedtime picture book for ages 2-5, shows backyard animals as they play on the grass and in the trees. The kitty, the puppy, the mouse, the squirrel, and others gradually curl up and go to sleep as the stars come out. Finding out who's still not asleep as night falls makes a fun ending. Could it be the child looking on from the window? The gentle message that it is now time to go to sleep will help a small child to effortly fall into Dreamland.
