Alexander Grant is about to take his 3000th history test. You know how you feel like you've been going to school for a thousand years? Well, he actually has. No one in his school has any idea that-although he looks like a normal teenager-he's actually 1500 years old.

Not the girl he likes. Not his best friend. No one. That is until an ancient warrior tries to kidnap Alexander and use him as bait to catch the one person capable of stopping a plan that would change the world forever.
