"Borrow a cuppa sugar?" For Ben, between scotch-drinking spirits, gremlins munching on his vehicle's engine and a troll in the backyard snacking on lawnmowers, meeting Clyde seemed normal. Apart from the four legs and the swishy tail, that is. Rescuing a damsel abducted by a dragon was beginning to appear ordinary. Then a tiny leprechaun got very big ideas about world dominance and everything blew up out of proportion. Ground hay, anyone? A thoroughly crazy and up-beat fantasy.
