Quick Questions • Are you living the life of your dreams? • Is this the life you always imagined you would be living? Turning our dreams into our lives is our strongest desire, but what do we do instead? We hold ourselves back and settle for comfort. We were created for so much more and yet somehow we settle for the mundane and the mediocre. You may be living a 'nice life', but if it's not the life you've always dreamed of living then what's the point? When you were growing up you didn't dream of living a 'nice life', you dreamt of living your dreams - doing those courageous things you promised yourself you would do one day when you were all grown up. Yet how many of those dreams are you living today? In Backstage Actor: Minus a Frontstage Life the author offers 50 Life Hacks to help dreamers like you turn your wildly creative dreams into your life. He draws from personal experience to challenge you to escape from the patterns of thought and behaviour that have all but tamed and crippled you. It's time to take action and turn your dreams into your life!
