Delving deep into this very misrepresented tradition, Samael Aun Weor definitively shows the beauty and majesty of the Aztec mysticism, and how it is firmly based in the universal laws represented in the Kabbalah and the Tarot. Includes a powerful series of exercises that guide the reader to have their own mystical experiences. "It is stated that the Toltecs said: Quetzalcoatl, Tula succumbs, Tula is wrecked! Yes, it is finished, the lost Eden is finished, the distant Tula turned into ashes, the Garden of Eden and the Garden of Hesperides became cosmic dust. The human being lost his transcendental faculties and converted himself into a beggar, he abandoned ancient wisdom, he degenerated completely; yet now, only the glory of Quetzalcoatl (the Cosmic Christ) in this Universe can radically transform us and convert us into super-humans.

We are in a terribly Dark Age! We need to regenerate ourselves; we need to study in depth the Quetzalcoatlían mysteries. We need to carry this message of our Lord Quetzalcoatlí throughout all of America, so that America can burn with the marvelous blazing glory of Quetzalcoatlí." - Samael Aun Weor Topics include: Reflections about Quetzalcoatlí; That Which Has Never Been Explained; That Which the Nahuas Taught in Their Secret Temples; The Beheaded One; The Secret Temple of Chapultepec; Chac-Mool in the Aztec and Egyptian Cultures; The Aztec's Luminous Dragon is the Egyptian God Harpocrates; The Sacred Tiger; The Seven Churches of the Revelation of Saint John; Meditation; Huehuetotl; Tepeu K'Ocumatz;
