Mothers and grandmothers. Students and singles. Stay-at-home moms and working moms. How can your women's ministry become a celebration of the church's uniqueness rather than a conflict of interests? *New Doors in Ministry to Women* presents a life-changing strategy that adapts to the unique circumstances of various ministries. This strategy, the Transformation Model, provides direction for building a ministry team, creating dynamic Bible studies, and preparing for and surviving conflicts. By building a women's ministry around the understanding of biblical truth, this new model helps deepen women's relationships with God and then with others.
