Candace, a beautiful and sexy 35-year-old widow, battles with her conscience, loneliness, and sexual desires as she's charmingly seduced by Justin, an 18-year-old boy who happens to be her son's best friend. Skyler is caught between dealing with his best friend and mother's illicit affair and his kid sister's disturbing ways. Kylie, a teen with an unbridled spirit, causes a whole lot of surprises when she divulges her fantasies to Justin and Skyler. Justin has been in love with his best friend's mom since the age of 15, and now that Skyler is going off to college, he advances more aggressively to win her over.

He can sense she's waning, and it's only a matter of time before she succumbs to his lust for love. * Erotic, taboo, strong language. For the open-minded * Word count: approx. 44,200 .
