Darkness has fallen upon the mountain forest.

The magical animals have been kidnapped by an evil organisation hell bent on retracting the crystal of time, destroying the forest spirits and the ancient Never Ending Forest. The legendary crystal mage, The Hermit Master, sets off on a daring journey with the newly born pup, Katie, and his blind granddaughter, Tamara.

It is a race against time. Can they save their friends from the evil crystal mage, Isabella, before it's too late? The Legend of the Hermit Master is a story of friendship, courage, self-discovery and magic. It touches upon growing up with disabilities, losing loved ones, but also holds the core ones of not talking to strangers, telling friends and families where you are going, treat others how you want to be treated and most of all, always do the right thing. An uplifting and positive story that inspires children and young adults to aim for their dreams and protect what is important to them.
