From USA Today Bestselling author, Terri E. Laine, comes a sweet but sexy single dad story that's a part of The Vault anthology. When Honey Hunter goes on a job interview to be an in-house nurse for an elderly man with mild dementia, she'd hoped his son wouldn't be the only one-night stand she can never forget. Only he is. If she accepts the job, she has to remember he's her boss, not the man that tuned her fantasies into reality. Jake gets more than he's bargained for when his father insists he hire Honey, the one woman he can't get off his mind. As she works her way into the hearts of his family, he has more to consider than just his need for her. His heart—which has only completely belonged to one person—his daughter, is quickly getting tangled up in Honey. If he's not careful, the line between employee and employer will completely blur.
