As a Non-Psionic Contributor (NPC), Margot Hyland is fated to die on a weekly basis to greenskin raids on her hometown. Her life revolves around shoemaking, dying, respawning, and more shoemaking. When Margot discovers a secret hidden in her family's basement, she realizes she has a chance to break that cycle. Now, with newfound abilities she'll have to learn to control, Margot must brave a harrowing journey ahead of her to defeat the Stronghold targeting her town. Hatchling is the first book of Wyvernette, a fantasy LitRPG series.
