The France of the Musketeers has changed. Decades ago, someone opened a tomb in Eastern Europe, and from that tomb crawled an ancient horror, who in turn woke others of its kind. Now Paris is beset by vampires, the countryside barren and abandoned. The Cardinal has become a vampire, the church is banned, the king too cowed to fight. Until now, the three Musketeers, Athos, Porthos and Aramis have stood as a bulwark against the encroaching evil, their swords defending the innocent and help. But last night, in a blood mass, Athos was turned into a Vampire. And a young vampire orphan has just arrived from Gascony: Monsieur D'Artagnan. Things are about to get... complicated. This book was originally published under the pen name Sarah Marques.
