PRE-ISBN From the front-inside of the dustwrapper: “The Patrol System – the leadership of Patrols of half a dozen boys by one of themselves – was perhaps the most revolutionary idea which Baden-Powell introduced when in 1908 he wrote Scouting for Boys. And now comes the Patrol Leaders’ Handbook which every Pip-Ell should possess.

It will help him to lead his Patrol of Wolves or Seagulls or Swifts or Beavers to better and more adventurous Scouting – in the Patrol den, in the Troop room, in camp or in any other place at any other time.”
