Paris is the City of Light love and savoir vivre And this world-class capital is surely one of the planets most photographed destinations whether by tourists snapping a quick souvenir shot or professionals with high-end cameras The brief preview we provide here shows how special this city really is Paris has never been showcased as impressively meaningfully or dramatically as it is by the French photographer Serge Ramelli His vision of the city-like all of his images-is unmistakably inspired by cinema In addition to his second passion filmmaking which he does when hes not taking pictures he is also fascinated by the films of Jean-Pierre Jeunet and Ridley Scott Ramellis interpretation of the bustling metropolis of Paris is at once impressive and fabulous Pulsing with life both day and night the city appears nearly devoid of people-a heavily symbolic place with many facets to explore shining with an inimitable light
